CITY OF CHICHESTER

HEALTH DEPARTMENT,  
COUNCIL OFFICES,  
CHICHESTER.

September, 1941.

To the Right Worshipful the Mayor, Aldermen and Councillors  
of the City of Chichester.

Ladies and Gentlemen,

I have the honour to present to you my Twenty-ninth Annual Report as Medical Officer of Health for the City and the work carried out in the Health Department for the year 1940.

I have received instructions from the Ministry of Health (Circulars 1961 and 2067) in which it is stated that in view of the increasing pressure of work in the Public Health Department of local authorities and the need for strict economy in the use of paper the Minister considers that Interim Reports should be made for the year 1940 and confined to essential and urgent matters which have affected the Public Health during the year, especially in matters arising from or connected with the War, outbreaks of Infectious Diseases, and measures for Maternity and Child Welfare, together with any exceptional administrative measures taken or recommended by the Medical Officer of Health.

The Ministry also require that suitable arrangements should be made for the careful preservation of all records and statistics usually supplied, as after the termination of the War a report will be required dealing more fully with the subjects concerned.

SECTION A.- STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area (acres) ... ..	2,869
Estimated Population (1940) ... ..	18,540
Number of inhabited houses (end of 1940) according to Rate Books ... ..	4,799
Rateable Value-General Rate ... ..	£151,565
Sum represented by a penny rate ... ..	£595

The City is chiefly a residential district, the outlying parts are agricultural, whilst the more important trades carried on within the City include:- Building, Steam and Hand Laundry Works, Dye Works, a Tannery, Wool Sorters, Potted Meat and Sausage Factory, Printing Works, Brewery, Mineral Water Factory, Gravel Pits, and Gas Works.

Unemployment has varied in the City during the last nine years, as shown by the following figures:-

1932 ...	9 per cent.	of the insured population were out of work.
1933 ...	7 per cent.	" " "
1934 ...	6 per cent.	" " "
1935 ...	4.3 per cent.	" " "
1936 ...	3 per cent.	" " "
1937 ...	2.5 per cent.	" " "
1938 ...	7 per cent.	" " "
1939 ...	6 per cent.	" " "
1940 ...	4 per cent.	" " "

## SECTION B.- GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

### 1. (i) Public Health Officer of the Local Authority-

The Medical Officer of Health - A.M. Barford, M.D., F.R.F.S., D.P.H.  
Salary, contribution made under Public Health Acts.

The Sanitary and Housing Inspector - F.C.Nash,

Associate Royal Sanitary Institute,

Associate Member Institute of Municipal and County Engineers.

Salary contribution made under Public Health Acts.

J.A.Yates (Cert.R.San.I.) - Assistant.

R.L.Symes - Sanitary Assistant.

W.H.J.Osman - Shops Inspector.

(Miss) E.H.Putman - Clerk.

(Miss) J.Morris - Shorthand Typist.

Staff at the City Isolation Hospital -

Miss F.E.V.Gray, Matron, S.R.N., S.F.N.

Miss E.Holt, Sister and Deputy Matron, S.R.N., S.F.N.

Miss A.Haines, Sister.

Miss E.Skippon, Staff Nurse.

Three Senior Assistant Nurses.

Three Junior Assistant Nurses,

and Domestic Staff.

(ii) (a) Laboratory Facilities -

Dr. F. Standish, the Pathologist at the Royal West Sussex Hospital, Chichester, and the Clinical Research Association, carry out all Bacteriological work required, and during the year the following examinations were made with annexed results:-

	Positive	Negative	Total
Diphtheria ... ..	71	223	294
Tuberculosis ... ..	--	3	3
Scarlet Fever... ..	1	32	33
Typhoid Fever.... ..	3	4	7
Cerebro-spinal Fever	<u>2</u>	<u>25</u>	<u>27</u>
	<u>77</u>	<u>287</u>	<u>364</u>

Dr. S. Allinson Woodhead, F.I.C., the West Sussex County Analyst, examines all samples of Water and Milk required by my department.

ADOPTIVE ACTS IN FORCE.

The Public Health Acts Amendment Act, 1890. Part III.  
(Sanitary and other Provisions) adopted 24th April, 1891.

NOTE.- Sections 16 to 27, 32,33,36 and 47, and in Section 50 the words from "Section 16" to "certain sanitary purpose" and the words from "Section 32" to the end of the section were repealed by the Public Health Act, 1936).  
Parts IV. (music and Dancing) and V. (Stock) adopted 17th May, 1895.

The Private Street Works Act, 1892. Adopted 27th January, 1893.

The Public Health Acts Amendment Act, 1907. Part VI.  
(Recreation Grounds) adopted 5th March, 1919. Part VII. Section 85 (Registries for Servants) applied to the City by an Order of the Home Secretary, dated 5th March, 1937.

The Public Health Act, 1925. Part II. (Streets and Buildings) Sections 21 (Prevention of Water Flowing on Footpath) and 22 (For Preventing Soil, etc.) adopted 18th July, 1927, and the remaining sections adopted 1st June, 1936. (Section 20 (Courts, etc., to be paved and Drained) was repealed by the Public Health Act, 1936..

LOCAL ACTS AND ORDERS IN FORCE.

The Butter Market Act, 1807.  
The Chichester Cattle Market Act, 1868.  
The Chichester Canal Transfer Act, 1892.  
The Chichester Waterworks Act, 1897.  
The Chichester Electricity (Special) Order, 1922.  
The Chichester Water (Modification of Charges) Order, 1926.  
The Chichester Electricity (Extension) Order, 1931.  
The Chichester Corporation Act, 1935.  
The Chichester Corporation Act, 1938.

(b) Ambulance Facilities -

(i) For Infectious Diseases. Two Motor Ambulances are provided by the City Council; and kept at the Isolation Hospital for all cases of infectious diseases.

(ii) For Non-Infectious or Accident Cases. Two Motor Ambulances are provided, which are owned by the local branch of the St. John Ambulance Association. The Council contribute £50 per annum as a subscription towards the cost of running the Ambulance. The service rendered is excellent.

(c) Nursing in the Home -

(i) General. This work is carried out by the District Nursing Association, working in conjunction with the West Sussex County Council.

(ii) Infectious Diseases - e.g., Measles, etc. Nurses attached to the District Nursing Association visit cases of Measles on occasion when required, and the City contributes £30 per annum for their services.

(d) Clinics and Treatment Centres -

A Maternity Child Welfare Centre (Consultation and Treatment) is situated at Chapel Street, under the control of the West Sussex County Council, where there is also a School Clinic and Tuberculosis, Ophthalmic, Throat, Nose and Ear, and Orthopaedic Clinic.

Artificial Light treatment is available.

Venereal Diseases - Cases of this disease are treated at the Skin Department of the Royal Sussex County Hospital, the Worthing Hospital, and at the Royal Portsmouth Hospital. This work is controlled by the West Sussex County Council.

HOSPITALS.

(e) Voluntary Hospitals -

The Royal West Sussex Hospital, with 114 beds, is divided into Medical and Surgical, but as a rule there are 90 per cent. Surgical cases.

Twenty beds are specially provided for Medical and Surgical Diseases in Children.

Cases of Venereal Diseases are not admissible.

Cases of Surgical Tuberculosis are admissible.

The Chronic Sick are not admissible.

Mental cases are also not admissible.

Orthopaedic cases, Ophthalmic cases, and Throat, Nose and Ear cases are admitted to the General Surgical Wards.

Cases of Ophthalmia Neonatorum are admitted to the Children's Wards. Cases of Puerperal Pyrexia are admitted.

The following departments are provided at the Hospital under the supervision of qualified Surgeons:-

Orthopaedic Department.

Throat, Nose and Ear Department.

Dental Department.

Ophthalmic Department.

Obstetric Department.

There is an up-to-date Operating Theatre, comprising an Anaesthetic Room, a Robing Room and a Sterilising Room adjoining the Theatre itself.

There is also a Specialist in charge of the X-ray Department, and a specially qualified Sister.

There is a qualified Masseuse.

The Pathological Department at the Hospital is under the supervision of Dr. F. Standish.

It may be said, generally, that the Royal West Sussex Hospital provides all that is required for the area.

There is co-operation between the Local Authority and the Voluntary Hospital as to admission of Infectious Diseases to the former's Isolation Hospital, but no grant is made to the Voluntary Hospital by the Local Authority.

#### Public Hospitals -

St. Richard's Hospital. - With 140 beds.

The Mental Hospital. - 1,079 beds are available in this Hospital.

The Isolation Hospital. - The Hospital is situated in the north-east part of the City. There are separate blocks for Scarlet Fever and Diphtheria, and accommodation is provided for Enteric Fever and Pneumonia associated with Influenza or Measles, also Cerebro-spinal Fever. The Hospital comprises a Modern Cubicle Block. . . .

The total number of beds in the Hospital is 28.

This Hospital is supported wholly by the City Council.

The City Council have completed the scheme of extensions at the City Isolation Hospital, but owing to the War the new block has been taken over as a First Aid Post for which purpose it was designed.

At the commencement of the War and in accordance with a scheme approved by the West Sussex County Council provision had to be made for the treatment of Infectious Diseases and minor ailments owing to the increase in the population due to evacuees under the Government Evacuation Scheme.

Oaklands Park House was converted into an Infectious Disease Hospital containing 38 Beds and run as an annexe to the City Isolation Hospital.

22 cases of Scarlet Fever, 80 cases of Measles and 5 cases of Chickenpox were admitted during the year.

Whyke House has been opened as a Sick Bay for evacuee children suffering from minor ailments. Equipped with 49 Beds.

A Matron and staff of Assistant Nurses with Voluntary Helpers have been appointed.

63 cases have been admitted to the Sick Bay.

This Sick Bay was closed at the end of June.

Small Pox. - Arrangements have been made with the West Sussex County Council to treat all cases of Small Pox which occur in the district, and which would be removed to the Brighton Borough Isolation Hospital at Fulking.

Tuberculosis. - The West Sussex County Council have a Sanatorium at Aldingbourne, about four miles from the boundary of the City, for the treatment of cases in West Sussex.

Five cases of Tuberculosis were admitted to Aldingbourne House, for treatment during the year.

Maternity. - There is no Maternity Hospital in the City, but cases of difficult labour and Post Natal complications are admitted to the Royal West Sussex Hospital.

Children. -- There is no Hospital devoted solely to children, but they are treated in special wards at the Royal West Sussex Hospital in the City.

There is institutional provision for illegitimate infants and homeless children at the Children's Homes under the control of the West Sussex County Council, and occasionally at the Royal West Sussex Hospital.

## SECTION C. - SANITARY CIRCUMSTANCES OF THE AREA.

### 1. (i) Water --

The City derives its water supply from a well, 115 feet deep, situated at Fishbourne, about  $1\frac{1}{2}$  miles distant from the City, and here also is situated the City Waterworks. The supply is constant and sufficient.

52 samples of water were taken by the Sanitary Inspector during the year for bacteriological examination by Dr. S. Allinson Woodhead, F.I.C. and organisms of the Coli group gave negative results in 100 ml.

Two samples were taken for Chemical Analysis which showed the total hardness of the water was 16.6 18.0 grains per gallon and hardness (after boiling) was 2.7 4.4 grains per gallon. The result of these examinations shows the water to be both chemically and bacteriologically satisfactory and perfectly safe for drinking purposes.

All workmen engaged in the Water Department are submitted to a Blood Test for Enteric Fever before they are engaged.

There is a storage Reservoir at Lavant, and is of 2,000,000 gallons capacity, but the supply to the City in the day-time is direct from the well.

### Waterworks - Extensions of Mains.

Within the City      The Warren off Brandy Hole Lane 13 yds. 3" Pipe

Without the City      Funtington Borehole to Lavant  
New Pumping Main      4080 yds. 15"  
Spun Pipe

### Drainage and Sewerage --

Sewerage. Chichester is drained as far as possible on the separate system; the Sewage Disposal Works being at Appledram,  $2\frac{1}{2}$  miles to the south-west from the Chichester Cross.

No extensions to the existing Sewers have been carried out. The reconstruction of the Sewage Outfall Works is likely to be undertaken if sanctioned by the Ministry of Health.

### Rivers and Streams --

The River Lavant takes the following course:-- Entering the City at St. James', it flows behind the houses in St. Pancras, down Market Road, crosses South Street at Southgate, where it divides and passes into open courses to Appledram, and thence to Chichester Harbour. No pollution has occurred during the year.

### Closet Accommodation-

Water closets form the chief method of disposal.

No closets were converted to the water carriage system during the year. There are at the present time approximately:-  
56 houses in the City with cesspool drainage and  
20 " " earth closets.

### Public Cleansing -

Scavenging is carried out daily in the main streets and twice weekly in the bye streets. House Refuse is collected by the Corporation twice weekly and taken to the Destructor or dump situated at the far eastern part of the City.

The City Council have a modern cesspool emptying van for emptying all cesspools in the district, and the contents are disposed of at the Sewage Works.

### Sanitary Inspection of the Area -

The work carried out by the Sanitary Inspector under Article 19 of the Sanitary Officers' Order, 1926, is given in his Report attached.

### Shops and Offices -

Inspection work is carried out by the Sanitary Inspector, and details are included in his Report.

### Camping Sites -

There are no Camping Sites in the City.

### Smoke Abatement -

No complaints have been received during the year of any nuisance under this Section.

### Swimming Baths and Pools -

There are no Swimming Baths or Pools in the City.

### Eradication of Bed Bugs -

Very few complaints were received during the year of the presence of Bed Bugs in houses in the City, and in no case has a complete house been infested.

- |                       |      |               |
|-----------------------|------|---------------|
| 1. (a) Council houses | ...  | - infested    |
|                       | .... | - disinfested |

- |                  |     |               |
|------------------|-----|---------------|
| (b) Other houses | ... | 6 infested    |
|                  |     | 6 disinfested |

2. Method employed. All loose plaster removed, Skirtings, Architraves, etc., removed. All Bedding taken to the Steam Disinfector and the whole room and furniture sprayed with an Insecticide (Zaldecide or Killgercide).

- 3 & 4. Inspections have been made at the houses of all Tenants, removed to Council houses and in no instant was it necessary to take any action.

Premises and Occupations which can be controlled by Bye-Laws  
or Regulations -

There is one Knacker's Yard in the City, which is situated at the eastern end, and is conducted in a satisfactory manner.

There are no cellar dwellings or underground sleeping rooms in the City.

The Offensive Trades in the City include:-

- (a) The Fellmongers in Tower Street.
- (b) The Tannery in Westgate.
- (c) Fried Fish Shops.
- (d) Rag and Bone Dealers.

Schools--

The Elementary Schools in the City number nine. The sanitary arrangements of these Schools are satisfactory; all are connected with the main drainage and supplied with town water.

---

SECTION D. - HOUSING.

HOUSING STATISTICS FOR THE YEAR, 1940

Number of new houses erected during the year:-

Houses      ...      ...      ...      ...      1.

Inspection of Dwelling-houses during the year -

- |   |      |
|---|------|
| (1) (a) Total number of Dwelling-houses inspected for housing defects (under Public Health or Housing Acts)      ...      ...      ...      ...      ...      ...                                     | 327  |
| (b) Number of inspections made for the purpose  | 1296 |

| (b) Number of inspections made for the purpose  | 180  |
| (3) Number of Dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation      ...      ...      ...      ...      ...                             | Nil  |
| (4) Number of Dwelling-houses (exclusive of those referred to under the preceding sub-head) found not to be in all respect reasonably fit for human habitation  | 114  |

Number of Houses owned by the Local Authority -

The Council own 532 houses.	
Under the Additional Powers Act, 1919      ...      ...      ...	22
Under the Housing Act, 1923      ...      ...      ...	12
Under the Housing Act, 1924      ...      ...      ...	333
Under the Housing Act, 1930      ...      ...      ...	76
Under the Housing Act, 1936      ...      ...      ...	42
By other powers      ...      ...      ...      ...      ...	47

SECTION E. - INSPECTION AND SUPERVISION OF FOOD.

(a) Milk Supply -

The quality of the Milk in the City is quite satisfactory.

Three Licences have been granted to the Chichester Dairies, Limited during the year for the sale of Accredited and Tuberculin Tested Milk. Also one Licence has been granted to the same firm for Pasteurising Milk. Licences for the sale of Accredited Milk have been granted to Woodcote Dairy, Woolgar & Sons and to the Portsea Island Mutual Co-operative Society.

(b) Meat -

The Sanitary Inspector is the Officer appointed under the Public Health (Meat) Regulations, 1924.

The Sanitary Inspector regularly visits all Slaughter-houses at the time of slaughter or on completion, and personally inspects all animals and carcasses.

All Meat found to be unfit for human food is taken to the Refuse Destructor and burnt.

The butchers' shops and vehicles are kept under observation and are satisfactory.

There is no Public Slaughter-house in the City.

The report on the Inspection of Meat by the Sanitary Inspector is contained in his report attached.

Other Foods -

Premises where food is stored, exposed for sale or prepared are visited at frequent intervals, but very little unsound food was found, and generally speaking, the condition of the Bakehouses and other premises where food is manufactured or stored in the City may be said to be satisfactory.

(c) Adulteration - Sale of Food and Drugs Act:

The work under these Acts is carried out by the Inspector of Food and Drugs for the West Sussex County Council, and the following samples were taken during the year:-

<u>Description.</u>	<u>No. Analysed.</u>	<u>Genuine.</u>	<u>Otherwise.</u>
New Milk.	14	14	-
Tinned Milk.	2	2	-
Cocoa.	1	1	-
Coffee.	1	1	-
Pork Sausages.	3	3	-
Mince Meat.	1	1	-
Jam.	2	2	-
Sauce.	1	1	-
Jelly.	2	2	-
Pickles.	1	1	-
Lobster Paste.	1	1	-
Crab Paste.	1	1	-
Olive Oil.	1	1	-
Eucalyptus Oil.	1	1	-
	<u>32</u>	<u>32</u>	<u>-</u>

The average content of the samples of New Milk analysed by the Public Analyst was:-

<u>FAT.</u>	<u>SOLIDS NOT FAT.</u>	<u>TOTAL SOLIDS.</u>
3.54 %	8.87 %	12.41 %
<u>          </u>	<u>          </u>	<u>          </u>

## SECTION F.- PREVALENCE OF, AND CONTROL OVER INFECTIOUS DISEASES.

### 2. Infectious Diseases Generally -

The City Council issue Diphtheria Antitoxin to patients in the Isolation Hospital.

All contacts with cases of Diphtheria have swabs taken, and if with positive results are treated at the Isolation Hospital.

No case of Encephalitis Lethargica has occurred during the year.

No case of Dysentery was notified.

Twenty-four cases of Pneumonia (all forms) were notified.

Great effort is made to take all cases of Scarlet Fever and Diphtheria into the Isolation Hospital, and with very few exceptions they agree to enter the Hospital.

No action has been taken to shorten the period of stay of uncomplicated cases of Scarlet Fever, neither have these cases been encouraged to go home until free from infection.

The Schick and Dick tests in connection with Diphtheria and Scarlet Fever are used when occasion requires.

No primary vaccinations or re-vaccinations have been performed by the Medical Officer of Health under the Public Health (Small Pox Prevention) Regulations, 1917.

Five deaths occurred from Influenza during 1940.

Cases of Influenza have as a rule been treated at home, but for those complicated with Pneumonia who have not got suitable accommodation at home, arrangements have been made to admit them to the Isolation Hospital.

Measles with complications are admitted to the Isolation Hospital.

Twenty-seven deaths have occurred from Cancer in its various forms, and there have not been any cases of Anthrax or Rabies.

The Isolation Hospital is available for the cleansing and disinfection of verminous people, and their belongings would be disinfected in the Steam Disinfector, but there have been no cases in 1940 requiring attention.

There has been no prevalence of animal or insect pests.

The Public Health Committee of the West Sussex County Council have the matter of Cancer Research under consideration.

Notifiable Diseases (other than Tuberculosis) during the year 1940.

Diseases	Total Cases		
	Cases Notified	Cases admitted to Hospital	Total Deaths
Small Pox ... ..	Nil	Nil	Nil
Scarlet Fever ... ..	33	74	Nil
Diphtheria ... ..	4	23	Nil
Enteric Fever (including Paratyphoid) ... ..	Nil	Nil	Nil
Puerperal Pyrexia ... ..	5	Nil	Nil
Pneumonia ... ..	24	Nil	10
Other diseases generally notifiable:-			
Ophthalmia Neonatorum ... ..	1	Nil	Nil
Erysipelas... ..	11	9	Nil
Enccephalitis Lethargica ... ..	1	Nil	Nil
Cerebro-spinal Meningitis ... ..	Nil	11	Nil
Dysentery ... ..	Nil	Nil	Nil
Malaria ... ..	Nil	Nil	Nil
Acute Poliomyelitis ... ..	Nil	3	Nil
Measles ... ..	380	19	Nil
Whooping Cough ... ..	109	1	Nil
Other diseases notifiable locally	Nil		

During the year, three cases were admitted to the Isolation Hospital for observation. Three Diphtheria Carriers, two cases of Mumps, and one case of Scabies, were admitted.

When a case is removed to the Isolation Hospital the rooms used by the patient are disinfected at once by Formalin Fumigation; and in cases of Scarlet Fever and Tuberculosis the room occupied is completely re-decorated.

If not removed to the Isolation Hospital the disinfection is carried out at the termination of the case.

In all cases the bedding is now removed to the Council's Steam Disinfector.

During the year, the Steam Disinfector was used on 210 occasions, and the following articles were disinfected:-

10 Cot Mattresses.	240 Pyjamas Suits.
277 Mattresses.	198 Bath Towels.
304 Pillows.	15 Army Uniforms.
57 Bolsters.	7 Dresses.
354 Pillow Cases.	27 Dressing Gowns.
1,289 Blankets.	19 Coats.
36 Bed Covers.	33 Suits.
16 Feather Beds.	A large quantity of clothing.
5 Rugs.	And sundry small articles.
32 Eiderdowns.	
11 Curtains.	
40 Cushions.	
931 Sheets	

For the same period the receipts from Private Disinfections were £65-19-9d.

## Cancer -

Most of the cases of Cancer within the City come under the observation of the Medical Staff of the Royal West Sussex Hospital, directly or indirectly.

The Royal West Sussex Hospital has stored in London Radium, which is available for use throughout the County of West Sussex for the private use of practitioners and the smaller hospitals.

Some of the Radium has been obtained through the British Empire Cancer Campaign.

The Radium has been used chiefly in cases of Rodent Ulcer and malignant diseases of the Cervic Uteri, and in general cases of Cancer which do not admit of operation, and also to glandular areas after operation for Cancer in other parts.

## Provention of Blindness -

No action has been taken under Section 176 of the Public Health Act, 1936.

## Public Health (Prevention of Tuberculosis) Regulations, 1925.-

No action has been necessary under these Regulations; there being very few Dairies in the City, and no cases of Tuberculosis have occurred amongst employees in the Milk Trade.

I have the honour to be,

Ladies and Gentlemen,

Your obedient Servant,

ARTHUR M. BARFORD.

Medical Officer of Health.

CITY OF CHICHESTER

---

A N N U A L R E P O R T

of the

SANITARY AND HOUSING INSPECTOR

For the Year 1940.

# CITY OF CHICHESTER

HEALTH DEPARTMENT,  
COUNCIL OFFICES,  
CHICHESTER.

September, 1941.

To the Right Worshipful the Mayor, Aldermen and Councillors  
of the City of Chichester.

Ladies and Gentlemen,

I beg to submit to you a Report showing the work carried  
out in my department during the year 1940.

Total number of Inspections made during the above	period	1296

All animals slaughtered are effectually stunned with a Cash Captive Bolt Pistol as required under the Bye-laws.

Public Health (Meat) Regulations, 1924 -

On January 15th 1940 all slaughtering came under the control of the Ministry of Food and from that date the following Slaughterhouses were requisitioned by the Ministry.

Messrs. Shippam's Slaughterhouse,	Green Lane.
" Howard's	" Chapel Street.
Mr. W. Napper's	" Stockbridge.

Slaughtering is now carried out in these Slaughterhouses for the City and the adjoining districts, and has put an exceptional amount of work on my department, when it is appreciated that pre-war the total number of animals slaughtered during a year averaged 1,800 whereas the total number of animals slaughtered during the year 1940 was 23,889 made up as follows:

2,280 Cattle
9,269 Sheep
866 Calves
<u>11,414 Pigs</u>
23,889

The only Slaughterhouse suitable to cope with this increase in slaughtering was Messrs. Shippams. I reported on this matter to the Public Health Committee, and the Area Meat Agent was approached, with the result that the Slaughterhouse at Stockbridge was improved, but the Slaughterhouse in Chapel Street is still far from satisfactory, but it is receiving the attention of the Ministry of Food.

The following have been condemned and destroyed under my supervision:-

87 Cattle	78 Pigs
29 Forequarters	6 Forequarters
2 Hindquarters	2 Hindquarters
1 Side	1 Shoulder
262 lbs of Beef	3½ Legs
28½ Sheep	50 lbs. of Pork
21 Calves	170,824 lbs. of Offals
2 Forequarters	
1 Leg	

Six hundred and fifteen visits have been made to Slaughter-houses during the year.

#### Carcases Inspected and Condemned.

	Cattle, Pigs excluding Cows	Cows	Calves	Sheep and Lambs	
Number killed (if known)	--	--	--	--	
Number inspected	11,474	1,893	387	566	9,269
All diseases except Tuberculosis-					
Whole carcasses condemned	40	12	9	2	28 $\frac{1}{2}$
Carcasses of which some part or organ was condemned	627	102	53	6	-
Percentage of the number inspected affected with disease other than tuberculosis	5.71	6.02	16.02	1.41	1.22
Tuberculosis only-					
Whole carcasses condemned	38	6	60	1	-
Carcasses of which some part or organ was condemned	447	60	43	1	-
Percentage of the number inspected affected with tuberculosis	4.22	3.48	26.61	0.35	-

#### Rats and Mice (Destruction) Act, 1919-

During the year at all premises on which Rats were found to exist the occupiers have been requested to take steps to destroy them; and during the National Rat Week, poison was systematically used at the Council's Refuse Heaps, Sewerage Works and other property with satisfactory results. Poison is used at regular intervals throughout the year at the Refuse Heaps.

Letters	...	...	...	...	...	...	16
Letters of Caution	...	...	...	...	...	...	3
Verbal Warnings	...	...	...	...	...	...	34

General Conditions -

The general conditions of the shops are very good, clean, heating; sanitation and washing facilities satisfactory.

Assistants are getting full time for meals required by law. Forms showing hours of employment are constantly inspected and found to be in order.

DOMESTIC SERVANT REGISTRIES BYELAWS.

There are four Registry Offices in the City and 21 visits were made during the year.

All the offices are registering particulars of all servants as required. I have had only minor complaints during the year and these were dealt with on the spot. I am satisfied with the way records are kept.

EMPLOYMENT OF CHILDREN BYELAWS.

EMPLOYMENT OF YOUNG PERSONS.

One hundred and thirty three applications were received during the year for employment of children between the age of 12 and 14. Three refused as medically unfit. Nine refused for being under age.
